

# Senior Front-end developer

Location: [Saint-Petersburg, Russia](#) 

---

## About Me:

Senior Front-end developer with 6 years experience in both web and mobile software development. Graduated from National Airspace University named after N. E. Zhukovskogo with a Master's Degree in Control Systems for Aircraft and Complexes.

### Key technologies:

JavaScript, jQuery, BackboneJS, UnderscoreJS, AngularJS, RxJS, Ionic, Webpack, HTML5, CSS3.

### Work experience:

6 years

### Finished projects:

4

## Summary:

Passionate and enthusiastic Senior Front-end developer with good experience in development of commercial projects. I have deep knowledge of JavaScript, AngularJS, HTML5, CSS3, LESS and an object oriented approach. Since my work is also a passion, I am extremely interested in new and emerging technologies.

- Stabilization.

### Technologies:

JavaScript, Ionic, AngularJS.

# NDA, RIA for medicine purposes, USA

Front-end developer, duration 12.2013 – 10.2015

## Description:

The application allows doctors and nurses to keep records of patients and their schedule. Also it allows to assign different events and surveys to the patients and track their activity. It is a back-end driven single page application. The main library that was used is RADJS which is an extension of BackboneJS with some good approaches for mobile development. The result - it was successfully released and currently supported.

## Team:

4 developers,

1 QA engineer,

1 project manager.

## Duties:

- Front-end development;
- Support of existing codebase;
- Development of front part of the website;
- Implementing new features;
