

Middle JavaScript developer

Location: [Saint-Petersburg, Russia](#) 

About Me:

JavaScript developer with more than 4 years of experience in software development. Has good experience of working with React and NodeJS. Graduated from Russian-Tajik Slavonic University.

Key technologies:

JavaScript, React, Redux,
NodeJS, ExpressJS, TypeScript,
RxJS, D3.js, MS SQL, NoSQL,
HTML5, CSS3.

Work experience:

4+ years

Finished projects:

3

Summary:

I have been working on commercial projects for the past 4+ years. During all this time, I have developed and deployed numerous websites and SPA for the startups and large companies. My main goal is to make sure that the user's journey is as close to perfection as possible. I make heavy using of modern tools with automated linting, testing, building and deployment to ensure that all the apps are deployed, are user-performant, and are easy to deploy and maintain. Finally, it is my duty to provide code that is easy to understand for people. For that, I utilize modern coding standards and conventions.

Projects

Software, Germany

JavaScript developer, duration 01.2019 – till now

Description:

Web - based dashboard tool that integrates with external data source, aggregates and refines data, extracts insights, and display them in a nice, modern interface for deciders.
