

Middle Xamarin developer

Location: [Kyiv, Ukraine](#) 

About Me:

Xamarin developer with 4+ years experience in development of applications using Xamarin. Responsible, patient, attentive to details. Graduated from Vasyl` Stus Donetsk National University with a specialization in Computer Science.

Key technologies:

C#, Xamarin, .NET, MvvmCross.

Work experience:

4+ years

Finished projects:

5

Summary:

Xamarin developer with work experience in all areas of mobile development based on Xamarin (Core, iOS, Android). There is extensive experience in working with media content (images, audio, geolocation). Do my best to keep up with new frameworks and technologies. In addition, passionate about a readable and well-structured code.

Projects

Transportations, USA

Xamarin developer, duration 02.2018 – till now

Description:

The company offers a one call solution for your time critical shipments, servicing all points throughout the US and Canada. By utilizing proprietary technology, we are able to optimize the mode of service that will be best fit for your need and provide proactive tracking on every shipment. Something like “uber” for trucks.

Team:

2 developers,

1 QA engineer,

1 project manager.

Duties:

- Creating Android / iOS UI;
- Implementing server interaction;
- Database interaction;
- View models;
- Business logic;
- Setup continuous integration with Jenkins;
- Writing unit tests.

Technologies:

Xamarin Native, .NET Framework, MvvmCross, Python.

Communication, Ukraine

Xamarin developer, duration 07.2017 – 01.2018

Description:

Mobile application for Associations of Owners of Privatized Housing in Ukraine. It helps users to discuss their house business with neighbours right in the app. So any user can create votings, discussion and simple advertisements, communicate with neighbours in a built-in chat.
